

MESHPROP™
SERIES

INSTRUCTION GUIDE

Follow these instructions to successfully fold your Meshprop™ Series.

- 1** Fold the two cleats inwards towards the direction of the cylindrical closure.

- 2** Push the two cleats into the sleeve to create a cylinder with the device.

- 3** Push in the pre-cut flap to secure the cylindrical stool in position.

- 4** Pop the bottom eight foot-cleats outwards to create the feet for bearing & stability.
